

## The Military

© 2001 Rod Hess

God has legions of angels on hand,  
who are ready to fight at His command —  
To do battle with Satan and his devils within,  
who breed hatred and hurt and a world full of sin.

The military are like angels, for they too will fight  
the battle against evil to make things right.  
They risk their lives to bring peace to our land,  
so we can live in harmony with our fellow man.

And so as you serve your country with pride,  
here's an *Angel Guardian* who will stay close by your side.  
She will guide and protect you as you fight to defend,  
God's plan for "*peace on earth and goodwill toward men.*"

.....

**\* A way to honor and support those who are currently serving our country in the armed forces.**
